NDR Traffic Update no 36 - Overnight closures of Holly Lane, February closure of Salhouse Road

Holly Lane, a well-used route connecting the B1149 Holt Road and Reepham Road, will be closed for two nights next week for gas main diversion work on the route of Norwich Northern Distributor Road.

The closures will be from 8pm to 6am at the latest on the nights of Monday 30 January and Tuesday 31 January.

Over the next two weeks temporary signals – traffic lights or stop/go boards – will be in use as needed on a number of routes crossed by the NDR, including Fir Covert Road, Reepham Road, the B1149 Holt Road, A140 Cromer Road, B1150 North Walsham Road, A1151 Wroxham Road, Salhouse Road and Plumstead Road. Where possible they will only be used outside peak hours.

Early warning of Salhouse Road closure

Salhouse Road will be closed between the Blue Boar Lane/Woodside Road junction, Sprowston, and the Sole & Heel roundabout at Rackheath for three days from Monday 27 February to Wednesday 1 March.

The closure is to allow deep drainage trenches to be dug across the road as part of construction of Norwich Northern Distributor Road. Salhouse Road is not wide enough to allow this work to be carried out under any other form of traffic management. Traffic will be diverted via Woodside Road, Plumstead Road and Broad Lane/Green Lane East.

Norfolk County Council and Balfour Beatty apologise for any inconvenience caused by road closures and other traffic management measures during the construction of Norwich Northern Distributor Road.
